

## CONTENTS

<b>I. Nervous system</b>	<b>1—6</b>
Classification of Nervous System	1
Parts of Brain	2
Neuron	3
Neuroglia	5
<b>II. Spinal Cord</b>	<b>7—24</b>
External Features	7
Conus Medullaris	8
Filum Terminale	8
Fissures and Sulci	9
Spinal Nerve Roots	10
Spinal Segments	10
Cauda Equina	11
Internal structure	11
Grey Matter of Spinal Cord	11
Divisions of the Grey Matter	11
Regional Characteristics of Grey Matter	12
Central Canal	13
Nerve Cell Columns	13
White Matter of Spinal cord	17
Fibre Tracts or Fasciculi	18
Different Tracts in spinal cord	20
Ascending Tracts	21
Descending Tracts	21
Blood supply	22
<b>III. Medulla Oblongata</b>	<b>25—35</b>
External Features	25
Surfaces	25
Fissures and Sulci	26
Regions of Medulla	26
Internal structure	28
Transverse Section at the level of Pyramidal Decussation	28
Transverse Section just above the Pyramid	30
Transverse Section at level of lowest limit of 4th ventricle	32

Transverse Section through Upper-most part	35
Arterial Supply	35
<b>IV. Pons</b>	<b>36—45</b>
External Features	36
Internal Structure	37
Basilar Part	37
Tegmentum	38
Nuclei	39
<b>V. Cerebellum</b>	<b>46—60</b>
External Features	46
Fissures and Sulci	48
Morphological subdivisions	49
Morphological lobes	49
Functional lobes	50
Internal Structure	51
Grey Matter	51
Histology of Cerebellar cortex	51
Cerebellar Nuclei	53
White Matter	54
Fibrae Propriae	54
Projection fibres	55
Inferior Cerebellar Peduncle	55
Middle Cerebellar Peduncle	56
Superior Cerebellar Peduncle	57
Superior Medullary Velum	58
Inferior Medullary Vela	59
Blood Supply	59
Cerebellar Functions	59
<b>VI. Fourth Ventricle</b>	<b>61—66</b>
<b>VII. Mid Brain (Mesencephalon)</b>	<b>67—81</b>
Cerebral Peduncles	67
Crura Cerebri	68
Substantia Nigra	70
Colliculi or Corpora Quadrigemina	71
Tegmentum	71
Transverse Section at Level of Inferior Colliculi	72
